EyeCare of Royse City: Correction Versus Cataract

When you have your regular eye checkup and the doctor tells you stronger glasses are needed, this does not mean that you are developing a cataract or that you have any other eye disease. It does indicate, however, that your eyes need further correction to see as clearly as possible. This is a natural consequence of growing older, because with age, the strength of your focusing muscles tends to decrease. Your eyes need more help to focus clearly.

If you have a cataract, however, this means that there is a clouding of the lens in your eye. This condition, which can be detected in an eye examination, usually affects older people and comes on slowly. When it causes poor vision, surgery is usually recommended to remove the lens. This loss is compensated by the implantation of a new lens, cataract glasses or contact lenses so you can see clearly again. If you think you may be developing a cataract, have your eyes examined as soon as possible.

EyeCare of Royse City strives to meet the needs of Royse City and surrounding areas offering state of the art equipment and a large selection of designer eyewear. Our services include comprehensive eye examinations for adults and children, diagnosis and treatment of eye diseases ranging from dry eyes to glaucoma, prescription glasses, prescription sunglasses, eye emergencies, and LASIK management. We are open Tuesday through Saturday. Call today for your comprehensive eye examination at (972) 636-3937 (EYES).
